Shortlisting Parameters	1)The fund focuses on investing across sectors based on different phases of the economic cycle, offering the potential to outperform during various market conditions. 2) The fund has been managed by Mr. Niket Shah, who has successfully managed several funds under this AMC. His consistent performance has enabled these funds to secure a position in the top quartile.	1)The fund follows a stock selection approach using the 5-factor framework factors like Management quality, Sector outlook, Company outlook, Earnings growth & resilience and Valuations. 2) In July 2024, the fund notably boosted its exposure to Oil & Gas (rising from 3.5% to 5.6%) and Telecommunications (increasing from 4.1% to 7.5%), reflecting a positive outlook for these sectors.	1) The style of investing is a bottom up stock picking style because the core of its investment strategy is identifying companies in special situations which requires rigorous 360 degree stock research. 2)Since inception, the fund has delivered an annualized average return of 23.38%.	1) Fund has consistently outperformed the benchmark and category average over 3, 5, 7 & 10 years and remain in the top quartile.	1) In FY24, the government disbursed about ₹13,000 crores under the PLI schemes, up from ₹2,900 crores in FY23. Also, India has lagged in expanding the manufacturing sector's contribution to GDP. 2) Fund has delivered a annualized average return of 23.46% over 3 years time horizon, which is relatively higher than the category average.	1)India is the world's 3rd largest energy market and is expected to be the fastest-growing globally through 2050. India will likely account for 25% of global energy demand growth over the next two decades. India's energy consumption is 3 times the global average.
